## Linear Measuring Wheels

# Measuring Wheels

## Model 07

### Features

These medium-duty linear measuring wheels are used for estimating distances on smooth surfaces indoors and out. They feature a 5-figure display with bold .20" high numerals, and are capable of counting to 10000 feet or 1000 meters, depending on the model chosen. Their lightweight design eases handling, and the reset button is protected by a raised collar. The bright orange color increases visibility. Single and dual wheel models are available, as are multi-position straight or curved handles. Component parts are sold separately for quick field repairs. These wheels are widely used by contractors, utilities, accident investigators, real estate agents, and landscapers.

### Single Wheel

#### Specifications

<b>Figures</b>	5 figures, .20" high

12-0765	3 ft., 9999 ft.11 in., straight handle
13-0765	3 ft., 9999.9 ft., curved handle
14-0765	3 ft., 9999.9 ft., straight handle
11-0755	1 m., 9999.9 m., curved handle
12-0755	1 m., 9999.9 m., straight handle

### Features

These heavy-duty measuring wheels are best suited for outdoor use, recording long distances over a variety of surfaces, including rough terrain. Their lightweight design eases handling and reduces fatigue. They are capable of counting to 100,000 feet or 100,000 meters depending on the model chosen. These "In-line" models are available with 3 ft., 4 ft., and 1 meter circumference wheels. Component parts are sold separately for quick field repairs. The bright orange wheel enhances visibility, and the fold down handle reduces storage space. These models are widely used for estimating by contractors, agriculturalists, surveyors and landscapers.
